MINERS CALLED OUT.

The Bellaire Steel Works Miners
Persuaded to Stop Work

BY SEVERAL HUNDRED OTHER MEN

Who Marched from the Wheeling Creek Mines down Indian Run for that Purpose Yesterday Morning Before Daylight—The Men at Work were Perfectly Satisfied with their Wages and may Return to Work.

A crowd of two or three hundred Hungarian and Bohemian coal miners from the Wheeling creek mines went down Indian run yesterday morning early enough to see the coal miners at work in the mine of the Bellaire mill works before they went into the mine, the object as stated being to "persuade" them not to work till the strike was settled. They talked with all of the miners at work there, and say they secured promises from them not to go to work to-day.

The affair was conducted quietly, as the marching army of unemployed miners came before daylight, and it only became generally known after the people of the city began to stir around and could see the unusual number of men about. The number of "persuaders" had considerable effect upon the miners employed in the mill mine at wages entirely satisfactory to them, and if the persuasion results in these miners quitting work it will also have considerable effect upon the employees of the steel works, all of whom are anxious to get all the work they can before the summer shut down, and it was the intention to run the steel works all of this week.

Of course it is not certain whether these miners will stay away from the work they are satisfied with because the Wheeling Creek men want them to, nor will it be till to-day. If they do stay out it will not be because they are dissatisfied with either their work or pay, but because of the efforts of two or three hundred Wheeling Creek miners. There was no violence used, but the presence of that many men indicated that there might be at any time. It will be definitely known to-day whether the steel works will have to close or not. There is plenty of coal in the Bellaire Baltimore & Ohio yard that comes from the interior of West Virginia, and many train loads more come through every day. Even if the local miners quit the mill company may be able to complete their run of this week.

THE MARION MINERS

Working Right Ahead and Making Good Wages.

Mr. James E. Conaway, of Marion county, was in the city yesterday. Mr. Conaway reports improvement in business in the Fairmont coal region. This is due to the fact that the miners there are not on a strike, as the operators are paying the wages demanded and are flooded with orders from markets that have heretofore been supplied from the Pennsylvania region. Fairmont is, in fact, shipping coal into the Pittsburgh region and has contracts that will keep the mines going for some time to come. The miners about Fairmont had nothing to gain by striking, as when other regions in Pennsylvania and Ohio are in operation, freight rates are in their favor and the Fairmont region is placed at a disadvantage. So long as the strike continues elsewhere the upper Monongahela men will profit by it, while, at the same time, they are receiving a fair rate of wages.

Mrs. Klinefelter Escapes.

Yesterday Constable Seamon, of Martin's Ferry, arrested Mrs. Dick Klinefelter on a charge of adultery, and took her before Squire Clark, of Bridgeport, for a hearing. The squire held her under bond for her appearance next Wednesday. She sent a woman friend who accompanied her, to get a bondsman, and during her friend's absence requested permission to retire from the court room for a few minutes. She was allowed to go, in charge of an officer, and so far as any of the authorities are aware she is going yet, as she has not returned. An officer was in Wheeling last night looking for her.

A Bethany Student Dend.

K. W. Martin, a student of Bethany College, died yesterday morning from blood poisoning, resulting from a fall received some time ago. He was a very promising young man, with a great deal of literary ability, and was a favorite with all the students. His home was in Sullivan, Ind., where his remains will be taken to-day. Services will be held at the college this morning at 7:30 o'clock. College was dismissed for two days.

Nine Assorted Cases.

In the police court yesterday Ed Miller was given thirty days on the hill in default of a fine of \$10 and costs for fighting. Jake Johnson, Low Pierce and F. H. Bagg, who were in the row with him, were dismissed. Mike Flaherty, for disorder, got thirty days, Harry Holmes, a deaf mute vag, the same; also John Boyce and Dan McEntosh, while Alfred Boone, a plain drunk, got fifteen days.

Sent to Jail.

Yesterday George O'Neal and Rod Dickson were arraigned before Squire Gillespy on a charge of stealing a table castor from Jake Wilhelm. When arrested O'Neal had the silver frame of the castor in his possession, while the bottles were in Dickson's pocket. They admitted their guilt, and in default of bail were sent to jail.

Painfully Injured.

Last night a six-year-old child of John Blatner, of the Eighth ward, while at play fell and struck a nail which entered her forehead. The injured child was taken to Harry C. Stewart's pharmacy where the wound was dressed. The injury is not thought to be serious.

DECKHAND DROWNED.

Distressing Accident at the Wharf Last Evening.

Last evening at 7:20 o'clock a distressing accident took place at the public landing. The steamer Ben Hur, from Pittsburgh to Parkersburg, was lying at the wharf taking on freight. Several deckhands, including Junius Dow, who had shipped on the boat at Pittsburgh the day before, were carrying a big package of prepared metal roofing to the after part of the boiler deck of the boat. When about midships the casing of the package gave way, and Dow, thinking the heavy contents would fall upon his feet, stepped backwards over the guards into the river. He floated for about thirty feet, struggling feebly, evidently being somewhat stunned, when he sank and rose to the surface no more. Efforts were made by the boat's crew to recover the body, but without avail, and she left shortly afterward.

Assistant Wharfmaster Hasseman secured two men and they also tried to recover the body last night, but up to a late hour had not succeeded. The man was not known to anyone on the boat. He was a colored man, about thirty years old, and wore dark jeans trousers, dark blue flannel shirt, and a slouch hat; weight about 160 pounds.

Knows How It Is Himself.

Huntington Herald.

The West Virginia editors who met in Wheeling this week have departed to their homes, and that city feels an aching void. Doubtless there are a good many aching heads scattered about also.

COUGHED DAY AND NIGHT.

Three years ago, I was so sick I could not eat, sleep or walk for I coughed all day and night. My weight was reduced from 150 to 127 pounds. The first night that I slept four hours at one time, was after I had taken three doses of Dr. Pierce's Golden Medical Discovery. The offensive matter expectorated grew less every day and when I had taken the whole of one bottle I could sleep all night without coughing, and have been well ever since and weigh 155 pounds.

Mrs. L. F. COATES, could sleep all night without coughing, and have been well ever since and weigh 155 pounds.

STAR CLOTHING HOUSE—D. GUNDLING & CO.

It's a Trick

Of some dealers to sell some well known article at a price way
below reason to get people into their stores and then "take" it
out of them in big profits. And so selling our well known tailor
made clothes at a trifling margin above cost may look like
"Bait." But is it "Bait" when the fish can jump back into
water again if he likes it better? Is it "Bait" when you may
bring back what you don't like to-day, to-morrow, any day?
